SPECIFY THE PROPOSED PROJECT LOCATION

The project location should be focused at a single block or intersection. Please describe the location (address etc.) below. Please note that only locations generally located within the following boundaries will be considered for selection due to funding constraints – boundaries: north = 21st Street; east = Hillside, south = Mt. Vernon; west = St. Paul.

OPPORTUNITIES AND CONCERNS

Please describe any concerns/issues that occur at the proposed project location and possible opportunities. Please note, you do not need to specify the improvements that you want to see happen. The preferred improvements will be identified through the design process with community involvement.

COMMUNITY SUPPORT – MATCHING CONTRIBUTIONS

Please describe any matching funding or in-kind contributions that will be committed to the project if your application is successful.

COMMUNITY SUPPORT – PROJECT FORM SIGNATURES

To be considered for the project, you must obtain signatures (on the attached People First Neighborhoods Project Form) representing more than half of the properties abutting the intersection or along the street where the project is proposed. The signatures are required as part of the application process to ensure community support before the design process begins. If your project is selected, then residents on your block and/or at the intersection will be given the opportunity to work with the consultants on the design of the temporary improvements, and any long-term improvement designs undertaken as part of this project.

COMMUNITY SUPPORT – LETTERS OF SUPPORT

You can also attach letters of support or other evidence of community support for the project in addition to the required signatures representing abutting properties.

PEOPLE FIRST NEIGHBORHOOD PILOT PROJECT SUPPORT FORM
